ABOUT ME

"A passionate IT Software Engineer with hands-on experience in frontend and backend development, data visualization, and modern web technologies. Proficient in HTML, CSS, JavaScript with backend expertise in Java Spring Boot and Maven. Skilled in building responsive user interfaces, developing interactive dashboards using Power BI, and delivering clean, maintainable code."

EDUCATION

Anurag University   Hyderabad, India
Bachelor of Technology(Information Technology; GPA: 7.70)   **June 2022 - August 2026**
Narayana Junior College   Hyderabad, India
Telangana State Board of Intermediate Education- MPC; GPA: 981   **June 2020 - August 2022**

SKILLS SUMMARY

- **Languages**:   Python, SQL, JAVA
- **Frameworks**:   Pandas, Numpy, Scikit-Learn, Matplotlib
- **Tools**:   Power BI, Excel, PowerPoint, MySQL
- **Platforms**:   PyCharm, Jupyter Notebook, Visual Studio Code, PowerBI

WORK EXPERIENCE

POWER BI INTERN | CODETECH IT SOLUTIONS | LINK   **January 24- March 24**
- Designed and developed a comprehensive **Sales Performance Dashboard** in Power BI to track KPIs such as revenue, profit margins, and regional sales trends.
- Utilized **Power Query** for data cleaning and transformation, and **DAX** for calculated measures and dynamic visuals.
- Integrated data from **Excel** and **SQL** sources to build a reliable data model for reporting.
- Delivered actionable insights to help improve sales strategy and business decision-making.

PROJECTS

Supermarket Billing System | LINK   **January 25 - February 2025**
- Developed a Supermarket Billing System using **Java Spring Boot** to manage product inventory, handle customer purchases, and generate bills.
- Integrated **MySQL Database** for product storage and automated schema updates using Hibernate. Followed MVC-architecture for better maintainability and extensibility.

Diabetes Prediction System | LINK   **October 24 - November 24**
- Enhanced a web-based system to predict the likelihood of diabetes using **Machine Learning** algorithms. Implemented data preprocessing techniques (handling missing values, normalization) for improved model accuracy.
- Built a Flask-based web interface to collect patient data and display predictions in real-time.

Online BookStore | LINK   **April 23- May 23**
- Improved a fully functional frontend interface for an online bookstore using semantic **HTML and custom CSS styling.**
- Implemented **JavaScript-based interactivity** including book search, add to cart, and dynamic content rendering.

CERTIFICATES

- **Introduction to Cyber Security(Cisco) | CERTIFICATE**   **July 2023**
- **CCNA: 1,2,3 | CERTIFICATE**   **Dec 2024**
- **Python Essentials(Cisco) | CERTIFICATE**   **May 2025**

ACHIEVEMENTS/ACTIVITIES

- Participated in Ideathons conducted by Task(Telangana Academy for Skill and Development).
- 5-Star Python Programmer in HackerRank Platform.
- Participated in Hackathon conducted in Woxsen University, 2025.
